

JOB OFFERER

For nearly 30 years, **Groupe NEAS** has distinguished itself by contributing to the sustainable economic development of populations and communities in the Canadian North. The company provides specialized maritime services, relying on its fleet of vessels, a strong freight service offering, and a team of over 300 highly skilled professionals dedicated to customer satisfaction.

Chief Engineer

Experience the Canadian Arctic like never before!

NEAS is looking for an experienced Chief Engineer to lead the engine room operations of our vessels navigating polar waters. You will be responsible for the proper functioning of all mechanical, electrical, and hydraulic systems, ensuring crew safety, energy efficiency, and regulatory compliance. Every day on board is a stimulating challenge, combining technical leadership, maritime expertise, and polar adventure.

What we're looking for

- First Class Engineer Officer Certificate with STCW endorsement
- Strong leadership, discipline, and sound judgment
- Functional French and English skills

What we offer

- Seasonal full-time position: June to November, 3 voyages per season
- Unique missions in the Arctic, offering both professional challenge and adventure
- Stimulating and collaborative work environment
- Opportunities for professional development and contribution to process improvements
- Direct impact on the performance of our fleet and Arctic operations

Why join NEAS?

At NEAS, every voyage is an adventure. You will navigate spectacular landscapes, lead a dedicated team, and play a key role in safe and responsible Arctic operations. This is your chance to combine leadership, maritime expertise, and a passion for the Arctic.

Ready to take the challenge?

Send your CV and cover letter to jobs@neas.ca, with “**Chief Engineer Application**” in the subject line.
