

JOB OFFERER

For nearly 30 years, **Groupe NEAS** has distinguished itself by contributing to the sustainable economic development of populations and communities in the Canadian North. The company provides specialized maritime services, relying on its fleet of vessels, a strong freight service offering, and a team of over 300 highly skilled professionals dedicated to customer satisfaction.

Second Engineer

Experience the Canadian Arctic like never before!

NEAS is seeking an experienced Second Engineer to support the Chief Engineer in supervising and operating the engine room of our polar vessels. You will oversee junior engineers and assistants, ensure the smooth operation of mechanical, electrical, and hydraulic systems, and maintain compliance with safety and environmental regulations. Each voyage is a unique technical challenge in one of the world's most extreme and spectacular maritime environments.

What we're looking for

- Second Class Engineer Officer Certificate with STCW endorsement
- Dependable, detail-oriented, and capable of making critical decisions
- Functional French and English skills

What we offer

- Seasonal full-time position: June to November, 3 voyages per season
- Unique missions in the Arctic, offering both professional challenge and adventure
- Stimulating and collaborative work environment
- Opportunities for professional development and contribution to process improvements
- Direct impact on the performance of our fleet and Arctic operations

Why join NEAS?

At NEAS, every voyage is an adventure. You will navigate spectacular landscapes, lead a dedicated team, and play a key role in safe and responsible Arctic operations. This is your chance to combine leadership, maritime expertise, and a passion for the Arctic.

Ready to take the challenge?

Send your CV and cover letter to jobs@neas.ca, with **"Second Engineer Application"** in the subject line.
